THANK YOU!

Homelessness in Sonoma County is a major issue and unfortunately, public perception of such individuals has been skewed by many factors. As a consequence, vulnerable human beings have been dehumanized, criminalized and consistently stripped of their dignity and human rights.

FACES is a series of 40 close-up portraits of some of our unsheltered friends and neighbors in Santa Rosa. This vibrant collection of images was created by Santa Rosa photographer extraordinaire Salvador "Pocho" Sanchez-Strawbridge. These portraits of dignity in the face of adversity reflect the humanity of people experiencing homelessness who fully deserve our respect, compassion and dedicated assistance.

BE PART OF THE SOLUTION! PLEASE HELP US RAISE \$5,400

We need your generous **tax deductible** donation to produce the exhibit and strengthen community connections.
